

# COMPACT UTILITY TRACTOR

## V-Bar Reinforced

V-Bar reinforced cross chains provide increased traction in demanding conditions. Featuring case hardened alloy steel cross chains for long life and dependable performance.

**2 Link Spacing between cross chains = double the traction!**

TIRE SIZE	ORDER NUMBER
6X12	2821I612
6X14	2821I614
7X14	2821I714
600X16	2821I616
7X16	2821I716
8X16	2821I816

## Minimal Clearance - Aquiline™

- Hardened alloy steel for longer life.
- Square link design with wear bars for better traction.
- Cross chain sits on top of the lugs - won't fall in between lugs.
- Aggressive traction but won't damage asphalt when used for snow removal.
