

# SKID STEER

## Benefits:

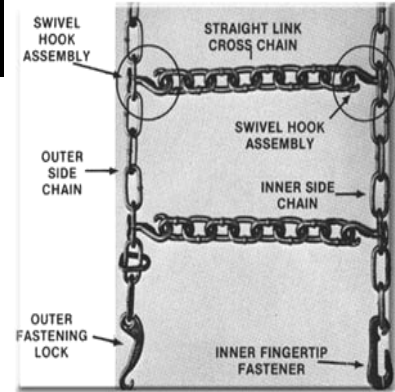

- Swivel hook design - No tools required to change broken cross chains.
- Triple the cross chain life, wearing all sides versus one side.

## Roller Grip Chains

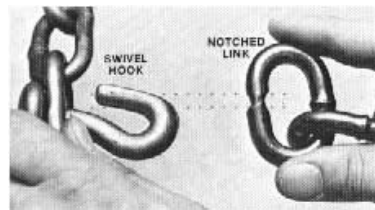

4 LINK SPACING

3/8" CROSS CHAIN WIRE

SIZE	STOCK	WEIGHT
10X16.5	R3410D	
12X16.5	R3420D	
14X17.5	R3430D	
15X19.5	R3414D	

\*FOR 2 LINK SPACING ADD 90% TO THE DEALER COST.

Roadboss tractor chains are built rugged and designed to be used in most on or off road conditions. The case hardened twist link cross chains are made of 3/8" diameter chain.

## Roadboss Chains

\*3/8 DIAMETER CROSS CHAIN WIRE

SIZE	STOCK	WEIGHT
10X16.5	RB829	58
12X16.5	RB822	70
14X17.5	RB850	80
15X19.5	RB836	87

BABAC's unique U-Form® stud chains produce constant traction on ice and rock, excellent wear characteristics and offer a smooth operator ride.

## Babac Stud Single Diamond

SIZE	STOCK	WEIGHT
10X16.5	1000165BSSL	
12X16.5	1200165BSSL	
14X17.5	147175BSSL	
15X19.5	15195BSSL	

Tru Grip skid steer tire chains are designed to prevent the cross chains from dropping between the lugs of the tire tread by adding an interconnected adjacent cross chain.

## Tru Grip Chains

**\*3/8 DIAMETER CROSS CHAIN WIRE**

SIZE	STOCK	WEIGHT
12X16.5	TRU225	109

Aquiline studded skid steer chains feature Talon cross chains which are assembled in an H-pattern. These chains are case hardened for on or off road use where aggressive traction is needed.

## Talon Studded

SIZE	STOCK	WEIGHT
10X16.5	10165AST	99
12X16.5	12165AST	116
14X17.5 / 12.5/80X18	14175AST	139
15X19.5	15195AST	153

## Minimal Clearance - Aquiline™

- Hardened alloy steel for longer life.
- Square link design with wear bars for better traction.
- Cross chain sits on top of the lugs - won't fall in between cleats.
- Aggressive traction but won't damage asphalt when used for snow removal.

TIRE SIZE	ORDER NUMBER	WGT. PR.
12x16.5	10123347	37
14x17.5, 31x1550x15	10123358	42
